27TH YEAR.

The Martindale Mercantile Agency.

26,000 Cities and Towns Represented. Special Mercantile Reports Free, except in very large Cities. Advantages of this over the old system of Agencies.

THIS AGENCY was the originator of the system by which the merchant gets his reports and makes his collections direct through Country Correspondents. Its advantages over the old system, briefly stated, are:

FIRST—It is cheaper, by from five to ten times, for Special Reports. SECOND—Reports obtained through the old system go through the city office of the Agency and are copied and sent broadcast to all subscribers, whilst through ours no one knows of the report except the merchant who gets it, enabling him to use it for his sole benefit without waking up other creditors. THIRD—Reports may be obtained by telegraph by use of our "Cypher Key." FOURTH—A country attorney will report more promptly and fully to the merchant direct than he will to any agency, for he hopes to secure him as a client. FIFTH—A report obtained through this Agency is of **to-day** and not of last month or last year, as it is liable to be under the old system.

As publishers of the American Law Directory, rating the lawyers, we have superior facilities for selecting none but the best, and a desire to keep their ratings good is a strong incentive to avoid giving our subscribers cause of complaint, as they know we will hear of it if they do. The very fact of our publishing it is a great benefit to all our subscribers, whether they use the Directory or not. See the point?
